Department OKRs

Department 2022: 75% employment rates

JFT OKRs

O1: We understand why and how students interact with CF during their job searching period

1. 99% of all off platform calls are registered on our systems
2. 100% of the confirmed calls have accompanying notes registered to our system
3. 99% of all call related invoicing cases are handled without human interaction

CSC usage data

Student insights

https://docs.google.com/document/d/1oZFIYsl5LsY_6fBqlGhdfXf5_FoIzR3LY3gzie45kW8/edit#

Requests from Career services

1. Register off platform calls
2. Handle invoicing
3. Network connector
4. Roadmap for students during the job hunting period
5. Public job hunting profiles through the employer connector
6. Career specialist can multimessage their students
7. Career services Bulk messaging of students through hubspot

Case management on platform

Job Search Period platform Integration

Call notes Status

1. Improvements and alterations will be needed
2. We are not touching invoicing yet
3. We need to register off platform calls and that might have complex policy involved
4. In the future email contacts might need to be included
5. Changes to admin pages might be needed

CSC Status

1. Increase adoption and engagement still needed
2. The interview tool performance is suffering massively
3. The hackathon brought in cool ideas
4. Bounce rate became higher after the menu release
5. Industry related features, content needed
6. Student ask for proactivity from the system
7. The CSC is quite static

Areas that we have not engaged with

1. Alumni
2. Groups of students - collaboration
3. Personas
4. Sense of progress for JH
5. Job ad comprehension
6. Make it easier to ID and support students who are struggling during their program
7. Test practice skills
8. Isolation during job hunting

Rolling from C2

Notes on call

Revamp CSC ?

What to research?

For C3 focus

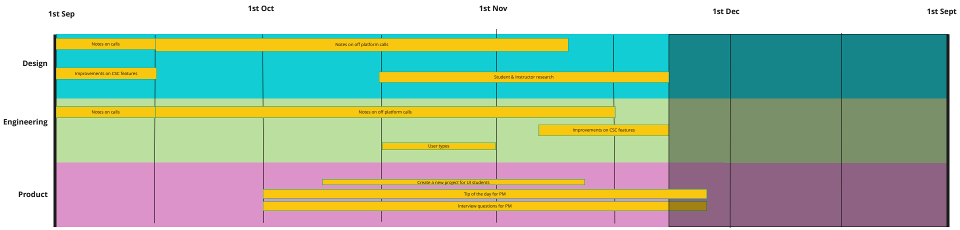
Register off platform calls for CS

Call notes for all call

Automate invoicing

Bring small wins to CSC

Timeline



Wishes & ideas

More job pooling from trusted sites

Align interview tool to includes the candidates needs in the job market

If budget allows, more student interviews

Improve our analytics

Another hackathon

+1

Projects from team hackathon

Improve interview tool bounce rate

+1

Survey (and talk to) the users who went to CSC, but then left it (to understand better the bounce rate)

Research several career service requests (network connector, student job hunt road map, multimessage, sharing EC profiles)
